Famine (Bellary) - attendance at Sirigeri relief work

No. M.S-5-05-35-A.L. 10-8-35

During his recent inspection of the Sirigeri camp, the Commr. of Land Rev. and Sett. noticed that nearly a third of the workers came from Sirigeri village and this was due undoubtedly to the proximity of the kitchen which attracted them in large numbers [illegible].

In order to discourage attendance on this work from Sirigeri and the villages within a mile or two of the camp, the Relief Officer was asked to dispense with the work of breaking and carrying metal as many of the people from these villages as possible, retaining persons from other villages largely for the work of spreading and consolidation. The Relief Officer is requested to report when this instructions

ENCLOSURES____

FAMINE- Bellary District Attendance on Sirigeri Relief work- Report submitted

SPARE

Ref 1-2 C/ Board's Ref. M. No. 5503/35 dated 10-8-35

The orders of the Faimine Commissioner were given effect to immediately and they were followed till 2-8-35 when all the metal required for the work was collected. After that date the labourers who were coming from Sirigeri and other nearer villages were put on road work i.e., spreading and consolidation work, at a distance of 3 miles from their own villages. Even then the labourers resorted to this work as before because there was no labour available in their villages due to the withholding of rains then. Since the advent of rains in the middle of August the number of workers and dependants have fallen considerably. On account of the decrease in number and the favourable character of the season in the village surrounding this famine camp I have ordered the closure of this camp from the 12th instant. In these circumstances no further action is necessary in the matter.
